

## Lafayette Amateur Hockey Association Policy Review Form

This season we have some Safe Sport policies that are into effect. We now have a locker room policy, co-ed policy, and a travel policy. The locker room policy and co-ed policy both have rules that all players need to follow when in the locker room and around all of the other players. This is especially important as our program grows and we have all age groups together at most practices. The travel policy is in place for any away games that are not played at Planet Ice. This may not be for every age group but will be in place if we can find away games for our team.
